

Ogilby's and Morgan's
Pocket-Book of the ROADS,
WITH THEIR
Computed and Measured Distances, and the
Distinction of MARKET and POST-TOWNS.

To which are added,
Several ROADS, and above Five Hundred
MARKET-TOWNS: A Table for the ready finding
any ROAD, CITY, or MARKET-TOWN, and it's
Distance from *London*: A SHEET-MAP of *England*,
fitted to bind with the Book: And an Exact Account of
all the FAIRS, both fix'd and moveable, in Alphabetical
Order, shewing the Days on which they are held.

By WILLIAM MORGAN,
Cosmographer to their late Majesties.

The EIGHTH EDITION, Corrected.

LONDON: Printed for J. BROTHERTON, J. HAZARD,
W. MEADOWS, T. COX, W. HINCHLIFFE, W. BICKERTON,
T. ASTLEY, S. AUSTEN, L. GILLIVER, and
R. WILLOCK. 1736.

ADVERTISEMENT.

JOH N OGILBT and *William Morgan* being thereunto appointed, and their Method approved by King *Charles II.* and the Lords of the Council, and having in prosecution thereof, with many Years Travel, and the Expence of 7000*l.* published the first Volume of *Britannia*, containing an Hundred whole Sheet Maps of the Roads, &c. did in the Year 1676, publish an Epitome of the same, whereof you have here the Eighth Impression; to which is added some Roads, and in the Tables more than Five Hundred Market Towns, with their Distances from *London*, &c.

We have also added several *Towns*, *Ports*, *Harbours*, *Creeks*, and *Bays*, in the Map which is fitted and annexed to the Book, and both together are a complete Direction for Travelling, all over *England* and *Wales*.

For it being next to impossible in a small Volume to lay down all Roads that every Man may have Occasion to travel, because from one and the same Place a Thousand Men may have a Thousand several Ways to go; therefore we have added the Map, that if you do not find in the Book the Road you would go, by finding in the Map the Place where you are, and whither you would go, you may easily see what Road will bring you thither.

For Example; would you go from *Northampton* to *Tork*, for which you have not the direct Road in the Book, but by the Map you find your Way is from *Northampton* to *Willingborough*, and so to *Stilton*, and then you are in the Road to *Tork*.

EXPLANATION.

IN each Road you have, first, named the Place whence, and to which the Road goeth, as Number 1. Page 13. from London to Aberistwith, and in the Cross-Roads, Cambridge to Coventry, &c. then follow the Names and particular Distance of each remarkable Place you pass.

The Numbers under C. shew you the Vulgar Computation; the Numbers under M. F. give you the Measured Distance by Miles and Furlongs.

And by casting up the Numbers, you have the Distance of any one Town from another; as Page 13. Number 1. from London to Uxbridge, you will find it by Computation 15 Miles, and by Measure 18 Miles 4 Furlongs, of which 8 make a Mile: and so of the rest.

But

EXPLANATION.

But we have given you the Totals of the Computation, and Measure of each Road, with the Cities and Market-Towns thereon, in the following Tables.

Where the Computation is omitted, that Town is not a Mile from the next, or admits of some odd Parts of a Mile ; and in such Cases we have given the Computed Distance from the Town before, to the Town following the Omission.

As in the Road abovementioned to Aberistwith, from Kensington Gravel-Pits to Shepherds-Bush, it is by Measure 1 Mile 7 Furlongs ; but the Computation is omitted till you come to Acton, which is accounted 3 Miles from Kensington Gravel-Pits.

We have divided the Roads under Two Heads, Roads from London, and Cross-Roads.

In the Roads from London there are divers that go part of the Way, and then turn out of the

EXPLANATION.

great Roads ; and to avoid repeating the Towns and their Distances, till you come to the Place where you leave the great Road, you are referred to the Road out of which each Branch issues, by the proper Number under which it is ranged. All the great Roads being included in 13 Divisions with their Numbers placed at the Head of each progressively from Number 1. to Number 13. beginning at Page 13. and ending Page 24.

As in the Road from London to Buckingham p. 15. you are directed to Number 1 for the way as far as Uxbridge, and in the Road from London to Montgomery, Page 20, you are also referred Number 1 for the Way as far as Worcester, where the Road to Aberistwith, and the Road to Montgomery part ; and so of the rest.

We begin our Measures of the Roads at the Standard in Cornhill, London, and continue them through every Town, which makes the Measure so much exceed the Computation.

The

EXPLANATION.

The Cross-Roads are such as lead from one City or great Town to another; and are placed alphabetically; where the Town that begins the Road takes place.

*For Distinction, Cities are in CAPITALS, Market-Towns in Italick; and Post-Towns mark'd thus * as Page 13 * Waltham-Cross is a Post, and not a Market-Town; Hodson is a Market, and not a Post-Town; * Ware is both Market and Post, &c.*

*A TABLE or INDEX of all the Cities
and Market-Towns, shewing their Distance from
LONDON, and in what Page of this Book
their respective Roads are laid down.*

The Numbers under C. is the Computed Distance ; under
M. F. the Measure by Miles and Furlongs : for Example :
Against *Berwick*, under C. M. F. you have 262, 339, 2 ;
that is to say, from *London* to *Berwick* is by Computation
262 Miles, by Measure it is 339 Miles, and 2 Furlongs.
The Figure before the Name directs you to Page 13.
where you have the Road to *Berwick*, and the Distance of
each Town ; and so of the rest.
